## **DURING THE FIRST OF ALL GAMES**

(Music: Eviga/Inve, Lyrics: Eviga)

The child is its steps,  
It laughs, it dreams so much  
It doesn't know and lives the centre  
Feeling nothing but the game alone

In form and colour, light and emotion  
It likes to be, and it loves movement  
The child feels

In form and colour, light and deed  
It likes to be, and it loves transformation  
The child feels

The blue bird, feathered with light,  
Is felt by the child, pointing to the sky,  
It likes to be

Crystal ball that rolls and shines  
Dance of colours and of lights  
The child feels

Fine threads are woven from child to cosmic rapture,  
Richly bejewelled with dew and tears,  
Sounding clear in the radiant  
Now

## **OF POWERS, WISHES AND YOUNG FEATHERS**

(Music: Eviga/Inve, Lyrics: Eviga)

A thousand powers, a thousand wishes, a thousand feathers rustle me  
A thousand masks, a thousand robes, a thousand words confuse me

Driven by wishes and full of strength you rage with your feathers  
Unaware and wild, your zeal turns force into poison

Silence would work, silence would work, if only you gave it full rein

Yet proud and violent, the ego flickers  
And never permits itself to feel wholly  
That power and wish and diligence  
Cannot turn feathers into flight,  
The long flight, the whole flight,  
As long as the ego won't succumb  
To you, the profound you of closeness

Thus, the ego is all alone in its ecstasy  
Of power, wishes, and young feathers

## **THE OCEAN'S BREATH**

(Music: Eviga/Inve, Lyrics: Eviga)

The ocean, it breathes just like you

Yet always and rarely known  
Farness opened up by your own hand  
No, you never went ashore at yourself ...

Power became a boat, and wish put to sea,  
With brittle sails and gleaming feathers  
Now you row severely, searching the sea  
For what keeps watch at your own jetty  
Yet all ropes are long-since severed  
And that beach is all forgotten

Far out on blackened waters  
Where the sun has burned you badly  
Your I is seeking the Thou,  
Taking it aboard to kiss the shadow,  
Yet the Thou capsizes the boat  
And helps the self to finally find  
What evaded the ego of fear

The ego, cut off from the self and addicted,  
Needs to give in in the end,  
While the devoted self becomes all  
That is always here

The ocean, it breathes just like you

## **THE LIGHT TRUSTS THE NIGHT**

(Music: Eviga/Inve, Lyrics: Eviga)

Nocturnal surging – froth and cliffs  
Rigid eyes - trembling lips  
Ego means fear, and you feel it now,  
But fear *is* not, it's just your ego escaping  
To a secure mirrored place far away  
The self, it stays, for the self, it trusts

Freeing forces, releasing forces,  
Binding forces, uniting forces

Devoted

These words point towards the cliffs  
These sounds paint the leap

Life always trusted you  
The light trusts the night

And becomes whole - it is all

## **WEAVED FROM COURAGE**

(Music: Eviga/Inve, Lyrics: Eviga)

When the self trusts, devotion grows  
That may blossom into courage

When silent being rouses joy,  
A wild dance soothes you

## **IN THE RIVER, THE FLAMES**

(Music: Eviga/Inve, Lyrics: Eviga)

Your courage is your trust

Your trust is your self

Your self is your depth

Your depth is your balance

Your balance is your cosmic affinity

Your cosmic affinity is your sympathy

Your sympathy is

Your courage

## **DREAM OF DREAMS**

(Music: Eviga/Inve, Lyrics: Eviga)

... Dying to this world ... I am between here and there ...

... Back to earth I can feel my shell flow ...

... All that I lived through becomes a dream itself ...

... And it seems more beautiful ...

... than all the dreams I dreamed in mortal life ...

... May my profound change become your human birth ...

... Breathe and marvel, my friend, you are so very much alive - here ...

Dream of dreams

Let me feel and realise you

Dream of dreams

Colourful in the mortals' land

Dream of dreams

Let me feel and realise you

Dream of dreams

Spirit without borders

Dream of dreams

Let me feel and realise you

Dream of dreams  
Life, oft-misunderstood

Dream of dreams  
Let me feel and realise you

## **FLOWER OF SILENCE**

(Music: Eviga/Inve, Lyrics: Eviga)

(instrumental)
